刚打开电脑，看到您发来的消息，简直都不敢相信自己的眼睛。前一段时间还能看到顾老师来生科楼，碰到了会和她聊几句，觉得她老人家身体很好，情绪也很开朗正常。

读完信，赶紧去生科院的主页查看，才相信这是真的。往日和顾老师长谈短聊的情景顿时涌上心头，想到她对自己的教诲和鼓励，她的和蔼、真诚、爱心、优雅，如今却是斯人已逝，音容不再，禁不住泪流满面。

我现在黄山开会，周五凌晨到京，我会周五上午去八宝山送顾老师最后一程。

顾孝诚老师永远活在我的心中！

这的确是一个令人哀伤的消息。顾老师的学术品德音容笑貌将永远留在我们的记忆里。

It is a great loss to china scientific and educational community, her spirit will live on in all, especially in CUSBIA members... -Michael

This makes me very sad indeed. I had a great respect for Prof. Gu, one of the nicest human beings I have ever met. She was full of wisdom, modesty and tact. People like her are increasingly rare to find. As the saying goes, we should thank her for having been with us, and thank her for staying with us.

If there is a biography of Prof. Gu, please send me a copy.

R.I.P. - may her rest in peace.

太多的回忆... 顾老师是我们的系主任，您是我们 83 生理生物物理的班主任。大四开始，我在卢光莹老师的直接指导下做斑头雁和狮头鬣的血红蛋白结构研究，因此与顾老师有了一些直接接触。听她们讲她们在做结晶牛胰岛素结构时的趣事。也在那时知道了顾老师的雅号

(喇叭)。和顾老师说话，根本没有压力，更没有觉得她是系主任或已经是在科学上已有很大成就的前辈。她更像妈妈或阿姨告诉我们要好好学，做好研究。后来顾老师知道我去生物

物理所读研究生，说她的老师都在那，现在我也去那学习了，因此我就不只是她的学生，而是师妹！现在我还记得她说话时的表情。顾老师就是这样平易近人，没有任何架子的人。无论是国际级科研泰斗，还是刚要毕业的小学生，甚至是生物楼的清洁工，她都会和你谈得很开心。

顾老师您走好。您永远都在您的学生心里。

刚听说顾孝诚老师因病离世，很是惊讶，记得一两年前还与她通过邮件。记忆中的顾老师总是充满生命力、智慧，有着巨大的能量。这是北大，乃至中国生命科学界的巨大损失。请您转达给顾老师的家人我对顾老师的离去表示深深的悼念。

It is hard to express the sadness I feel at the passing of Professor Gu, a great supporter of bioinformatics, colleague, and friend. She was tireless promoter of Chinese science at international fora and initiated China's joining Embnet, a world-wide association of bioinformatics centers. Professor Gu was more than a great scientist. she was a true noble character who radiated wisdom, modesty and tact. Her memory will remain with us. May she rest in peace.
