I am extremely sad by this news, Prof Gu was a dear friend and colleague and we all in ICGEB are in great debt to her. She was the chairperson of our Council of Scientific Advisors for 9 years, a task that she carried with great competence and wisdom. Her deep scientific knowledge was uniquely blended with human warmth and extraordinary strength and enthusiasm. We all shall sorely miss her and are very close to her family.

Prof. F.E. Baralle M.D., Ph.D.

Director-General

International Centre for Genetic Engineering and Biotechnology
